

Cezar Nareswara Respati

Lead Systems Architect & Full-Stack Engineer

cezar.nares@gmail.com | Semarang Asia/Jakarta | github.com/cnaresr | linkedin.com/in/cezar-nareswara-respati | x.com/cezarnares

PROFESSIONAL PROFILE

Bridging high-throughput distributed architectures, zero-hydration edge systems, and high-fidelity reactive user interfaces. 10+ years engineering resilient web platforms with mechanical sympathy.

CORE COMPETENCIES

Language TypeScript (98%)

Language Rust (95%)

Language Go (92%)

Language Python (90%)

Language C++ (88%)

Language SQL & PostgreSQL (98%)

Framework Astro Islands (95%)

Framework React 19 & Vite (96%)

Framework Next.js App Router (94%)

Framework Tailwind CSS v4 (96%)

Framework Node.js LTS v22 (92%)

Framework Cloudflare Edge (95%)

PROFESSIONAL EXPERIENCE

Veloce Query Fabric

Jan 2023 - Present

PostgreSQL / Rust / Kafka / Docker

Distributed telemetry aggregator and sharded PostgreSQL cluster fabric with live partition rebalancing. Delivers instantaneous metric ingest for industrial IoT sensors with strict guarantees.

Veloce Architecture Document V2.1 Citus/Pgpool partition strategies, Rust memory pools, and zero-copy socket IO.

AetherLog Realtime Analytics

Jul 2023 - Mar 2024

Astro / SSE Streams / Tailwind

Astro SSR combined with a Server-Sent Events streaming pipeline. Zero initial client-side JavaScript baseline while streaming 100,000 live event logs to an edge dashboard.

AetherLog Architecture HTTP/2 SSE streaming engine, zero-hydration Islands fallback, and sub-10ms TTFB edge caching.

Hyperion Design System Engine

Jan 2023 - Dec 2023

Rust / Vite / React / TypeScript

AST-driven design token compiler written in Rust and executed in WebAssembly across multi-brand React and Vite frontends. Generates strict TypeScript types and optimized CSS in <12ms.

Hyperion Architecture AST token graph resolution, CSS variable emission trees, and WebAssembly memory sharing.

Solis Distributed Mesh v2

Oct 2024 - Mar 2025

Rust / WebRTC / Protobuf / Wasm

Sub-millisecond peer-to-peer telemetry gossip protocol over WebRTC data channels with state-based conflict resolution.

Solis Distributed Mesh Architecture V2 Multi-peer state reconciliation using CRDTs over WebRTC data channels.

CERTIFICATIONS

AWS Certified Solutions Architect

Professional Level (SAP-C02)

AMAZON WEB SERVICES | Issued 2024 | EXPIRY 2027

PostgreSQL Certified Enterprise DBA

PostgreSQL 15/16 Professional

POSTGRES GLOBAL | Issued 2023 | VALIDATION PERPETUAL

Certified Kubernetes Administrator

Linux Foundation (CKA-2401)

CNCF / LINUX FOUNDATION | Issued 2024 | EXPIRY 2027

Meta Certified Frontend Lead

META OPEN SOURCE | Issued 2023 | VALIDATION VERIFIED

Principal Engineering Specialist
