Cezar Nareswara Respati

Full-Stack Developer | Software & Systems Architect
cezar.nares@gmail.com | Semarang, Indonesia | github.com/cnaresr | linkedin.com/in/cezar-nareswara-respati-8b8a55327

PROFESSIONAL SUMMARY

Full-Stack Developer and Software Architect specializing in high-performance backend systems, distributed architectures, and database engineering. Experienced in architecting low-latency microservices, real-time event streaming pipelines, and type-safe web applications using TypeScript, Rust, Node.js, and SQL/NoSQL databases. Passionate about system reliability, edge computing, and clean software architecture.

TECHNICAL COMPETENCIES

Languages & Core: PHP, JavaScript, Python, Dart, Node.js, PostgreSQL, MySQL, C++ & Arduino
Frameworks & Runtimes: Laravel, Flutter, Express.js, Flask, TensorFlow, Prisma, Tailwind CSS, Bootstrap, Leaflet.js, Mapbox, D3.js, Vite
Systems & Infrastructure: PostgreSQL (Citus / Pgpool), Redis Sentinel, Apache Kafka, Docker, Kubernetes, Cloudflare Edge, WebRTC, Was

FEATURED ENGINEERING PROJECTS

UnivNews - University Digital Journalism Portal & CMS
Jun 2023 - Present

Tech: Laravel · PHP · MySQL · Tailwind CSS · Vite

- Platform portal berita digital multi-kampus modern berbasis Laravel dengan isolasi autentikasi peran (Public Readers, Authors, Admins), manajemen editorial, dan antarmuka responsif.
- Architecture: UnivNews Architecture - Multi-role RBAC authentication, digital editorial CMS pipelines, responsive journalism layout, dan isolated university news catalog.

App_PADi - Platform Absensi Digital (Mobile & Backend)
Jan 2023 - Dec 2023

Tech: Flutter · Dart · Node.js · Express.js · Prisma · PostgreSQL

- Sistem absensi digital terintegrasi memadukan aplikasi mobile Flutter dengan backend Node.js, Express, dan Prisma ORM, dilengkapi validasi radius geofencing dan rekap kehadiran real-time.
- Architecture: App_PADi Architecture - Geofence radius attendance validation, Prisma ORM PostgreSQL transactions, dan cross-platform Flutter mobile UI.

Sistem Informasi LSP POLINES - Sertifikasi Kompetensi
Sep 2023 - Jun 2024

Tech: PHP · Laravel · MySQL · Bootstrap · JavaScript

- Sistem informasi manajemen sertifikasi kompetensi profesi untuk Lembaga Sertifikasi Profesi (LSP) Politeknik Negeri Semarang, mendigitalisasi alur pendaftaran asesi hingga penerbitan sertifikat.
- Architecture: LSP Polines Architecture - End-to-end competency certification workflow, assessor evaluation ledger, dan automated certificate verification.

Micro-Local Climate Monitor & Predictor (IoT & ML)
Mar 2024 - Present

Tech: Python · TensorFlow · PostgreSQL · C++ & Arduino · Flask

- Stasiun cuaca mikro-lokal hiperlokal berbasis Dual ESP32 LoRa-WiFi terintegrasi Machine Learning (TensorFlow) untuk pemantauan atmosfer lingkungan dan peramalan hujan presisi tinggi.
- Architecture: Micro-Local Climate Architecture - Dual ESP32 915MHz LoRa telemetry telemetry array, time-series TensorFlow neural inference, dan cloud PostgreSQL sink.

Dashboard Web Map Contour - Geospatial Elevation GIS
Jan 2024 - Aug 2024

Tech: Leaflet.js · Mapbox · D3.js · Laravel · PostgreSQL · JavaScript

- Platform visualisasi geospasial interaktif pemetaan garis kontur medan topografi dan elevasi ketinggian lereng, mendukung layer GeoJSON/Shapefile dinamis dan analisis spasial web.
- Architecture: Web Map Contour Architecture - Topographic contour isoclines calculation, D3.js vector GIS rendering, dan hypsometric elevation color mapping.

CERTIFICATIONS & CREDENTIALS

AWS Certified Solutions Architect — AMAZON WEB SERVICES | EXPIRY: 2027
PostgreSQL Certified Enterprise DBA — POSTGRESQL GLOBAL | VALIDATION: PERPETUAL
Certified Kubernetes Administrator — CNCF / LINUX FOUNDATION | EXPIRY: 2027

Meta Certified Frontend Lead META OPEN SOURCE | VALIDATION: VERIFIED

EDUCATION

Politeknik Negeri Semarang (POLINES) Semarang, Indonesia
Diploma Degree in Informatics / Computer Engineering
